

Subway and Qdoba Community Fundraisers

How does this work?

Purchase Subway coupons for \$1 a piece and sell them for \$10. That is a 90% profit.

Purchase Qdoba coupons for \$2 a piece and sell them for \$10. That is an 80% profit.

Both cards have around \$50 dollars of value; therefore customs are getting a great product.

Have all collections made out to Crossroads Church. Fundraising period starts when you buy them but we would like you to have them all sold by the end of March.

Coupons cannot be returned.

Both Subway and Qdoba request that you refrain from selling the cards within two blocks of their stores.

Visit the Next Gen office at Crossroads or the Youth Staff during programs for more information and purchases.
